Midterm: Create & Improve a High-Fidelity Design

REVIEW

HISTORY

Meets Specifications

Excellent job!
It was a pleasure to review your work. Super clean, organized and documented.
Congratulations on passing the assignment! 🙌

Course 2 User Flows

- ✓ Provide a PDF of your Course 2 project review along with a link to the User Flow you completed (can add in Submission Details/Notes section, or by providing in your PDF files clearly marked).

★★★★★

UI Design Basics

- ✓
 - Signed up to Mobbin and created a "+ New Library"
 - Searched and "Saved" inspirational designs to library
 - Shared link to their Mobbin Library (starts with <https://mobbin.design/libraries/...>)

Meets Specification

Thank you for providing mobbin inspirational designs to the library. Looks great!

- ✓
 - Frame includes a complete list of visual elements including:
 - Typography (sizes, weights, and styles)
 - Colors (How foreground colors and background colors interact)
 - UI Elements and Styles
 - Imagery/Illustrations
 - Icons

Meets Specification

Perfect! Everything is super organized. You have all necessary elements for style guides with proper documentation and specs.

- ✓
 - Frame includes a complete list of components they are going to use to create their Pattern Library, which includes:
 - Buttons
 - Navigation
 - Other elements that might apply (ie. search bars, input fields, lists, dialogs etc.)
 - Defined the do's and don'ts of how each element of their design should be used and not used.

Meets Specification

Very well done.

✓

- Created Frames for their design in Figma (3-5 screens, suggested sizes; iPhone 8, 375x667; Android 360 x 640), using elements from the Style Guide.
- Created design based on chosen Course 2 User Flows.
- Figma Prototype Link provided: (starts with <https://www.figma.com/file/...>)

Meets Specification

I love your design, very minimalistic and clean. Great typography, iconography, spacing and elements grouping.

Building Interactive Designs

✓

- Linked screens together based on their C2 User Flows.
- Tested the flow making sure the user has a way to get back to the start of the prototype.
- Figma Link provided (starts with <https://www.figma.com/proto/...>)
