

Changes made:

We can do a better design for the user to more likely and make enthusiastic to use my app. The first impression gives the user to spend time in my app. I have changed Task app as explore tasks

iPhone 8 Plus - 2

iPhone 8 Plus - 1

Changes Made:

Here we could improve the design by adding an image inside to the "menu navigation drawer". This improvement is to enhance the looks of our application and given the user a feel of personalization. Where he/she can decide to put a custom avatar that suits their taste. Then we have added leaderboard page so that users can easily see their rankings with other people.

iPhone 8 Plus - 5

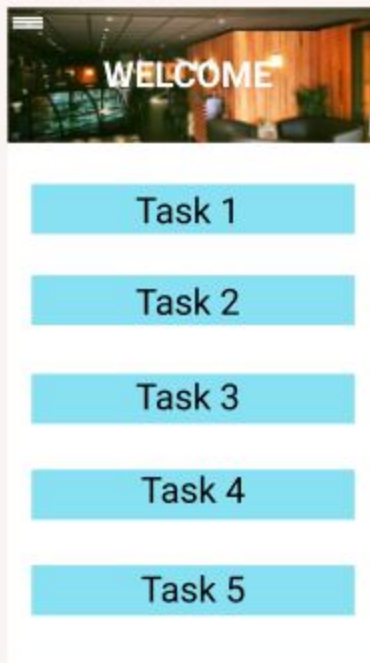

iPhone 8 Plus - 4

Changes made:

We can do a better design by giving the possibility for a user to easily see the tasks that he had completed and the tasks he need to do. This is easy for users to easily identify.
